EXHIBIT NUMBER 9

To Whom It May Concern,

Good morning we would like to start this letter by confirming we have no issues with daily visits, providing access to all rooms of our home, drug tests, or anything else that is needed to be able to provide an in-home safety plan. We are both dedicated to making sure all of our problems are resolved to provide our kids with the best care and support that we can and that the kids deserve. As for our neighbors that would be willing to check in on the kids over the weekend, we have spoken to Barbara who lives directly next door in yelling distance even, and she said she would be willing to provide those checks ins and her number and info has been provided to Mathew Tirzah.

When is/was the arguing occurring? When it was occurring what factors were surrounding them.

As of now, the fights are not occurring though, when they were most of the arguments were based on old problems that happened well over 8 years ago but never got resolved. Poor communication skills led to significant stress and conflict, This caused the fights to reoccur many times because of things left unresolved and our poor communication skills. On top of that with Donovan's drug use amplifying his feelings, the fights got way worse than they normally would have. Also with our poor communication skills, we were ill-equipped to work through those problems correctly. Both of us are attending individual counseling as well as couples counseling to learn better ways to resolve problems. We also attended Warrior to Soulmate where we learned a variety of ways to solve our issues without any type of arguing or fighting. Also with the help of Jennifer Hubbert and our counselors, we have been able to resolve our differences from past issues.

What is the plan if this occurs again in the future?

We have implemented strategies for conflict resolution including techniques learned in therapy. If the fighting occurs again we have more methods to resolve the issues peacefully including strategies like TimeOut, Fair Fight For Change, and a variety of other methods we have been shown to act as a first step for stopping the fight. If those don't work Donovan has agreed to leave so that Megan and the kids can stay in the home. Depending on the severity of the fight once we are calmed down we can calmly discuss the matter and decide how we want to move forward based on what happened. In the end, even if matters get to the worst and we were to separate Donovan has agreed to leave the house and kids with Megan as long as visitation is set and allowed.

Substance use/relapse what is the plan if this were to occur?

Donovan plans to continue going to the group and remain on his medications to help prevent any future relapse. If Donovan was to relapse he has agreed not to return home until he is sober at which point the matter can be discussed further. No matter the outcome of the conversation Donovan has agreed to immediately reenter rehab to regain and be able to prove his sobriety if a relapse were to occur.

WASHOE COUNTY HUMAN SERVICES AGENCY CHILD AND FAMILY TEAM MEETING SUMMARY

FAMILY CASE Mccafferty, Megan # OF CHILDREN 2 CASE # 1412121 DATE/TIME 6/3/24 2:00pm MEETING TYPE: Child and Family Team Meeting

CASE WORKER NAME Jennie Ballou FACILITATOR Caroline Thomas

STRENGTHS PROTECTIVE CAPACITIES AND POTENTIAL RESOURCES	IDENTIFIED PRESENT DANGERS / NEEDS	NEXT STEPS: WHO, WHAT, WHEN, WHERE, HOW?
---	------------------------------------	--

WASHOE COUNTY HUMAN SERVICES AGENCY

CHILD AND FAMILY TEAM MEETING SUMMARY

Facilitated CFT Meeting held via Zoom.
Meeting attendees were advised that this meeting is confidential.

Mother: Megan Mccafferty
Father to Alexis: Donovan Clark
Father to Evakay: Justin Baldes

Meeting Attendees:

Megan Mccafferty – Mother
Donovan Clark – Father to Alexis
Jennie Ballou – WCHSA Case Worker
Christine Sullivan – Megan's Attorney
Alana Pitman – PD Intern
Jennifer Hubbert – Family Therapist/Couples Counseling
Jesse DeHaven – Megan's Therapist
Rebecca McKibben – PD Investigator
Kasey Pomerleau – WCHSA Supervisor
Caroline Thomas – WCHSA Meeting Facilitator

Evakay and Alexis are placed with their paternal grandparents (Donovan's mom, Della and her husband, Byron).

There is significant hostility and animosity between the parents and grandparents. Reports/information indicate that the grandparents and parents continually make disparaging comments about each other. There are reports that Della is especially negative towards Megan. **Megan's truthfulness often comes into question.** Della has been accused of threatening to send the girls back to Kids Kottage when she does not like their behavior.

Purpose of the meeting: Review case progress and provide case updates.

Discuss concerns related to Eva's on-line chats that include messages of suicidal and homicidal ideation, as well as aggressive and sexual statements.

Visitation will be adjusted due to concerns about possible inappropriate conversations between the parents and the children during visits.

Children needs:

Evakay Baldes 10/19/09 (14)
Alexis Clark 2/24/14 (10)

Evakay and Alexis are established with Renown Pediatrics. No medical needs were identified at this meeting.

Donovan and Megan believe that the girls are being unnecessarily disciplined by Della. They believe that Della is taking their phones away from them for no reason other than to keep them from talking to their parents. They also report that Della threatens to send the girls away to Kids Kottage. "Put your stuff away, or I will send you to Kids Kottage." Megan and Donovan are extremely concerned and frustrated. They want the children removed from Della's home.

Eva and Alexis will begin individual counseling on June 12, 2024.

Jennifer Hubbert alternates weeks of family counseling and couples counseling.

Evakay and Alexis remain placed with their grandparents at this time. The parents want the children removed from this placement. They state that they would rather the children be put into foster care.

WCHSA will staff the concerns about the children's current placement with the WCHSA District Attorney's Office tomorrow (6/4).

Jennie will compile a list of some of the primary situations in which Megan allegedly "lied." Jennie will email this list to Jesse and Christine Sullivan.

Visits are scheduled for Tuesdays and Thursdays at the FEC (no off-site visits at this time).

Visits and phone calls will be monitored.

Jesse will provide a letter/report related to Megan's therapeutic progress to WCHSA and Christine Sullivan.
