To All Concerned Parties,

This is formal, written notice of a systemic failure to act on documented violations and probation breaches committed by Megan McCafferty (P&P Case #P1010004818), currently on active gross misdemeanor probation following her arrest on December 7, 2025 (Report No. 253410233) and subsequent conviction for Gross Misdemeanor Bigamy under Case No. CR25-3109.

Despite continuous notice of criminal activity, your offices have failed to file a probation violation or initiate prosecution on the following documented offenses:

1. RETALIATORY NEXUS & COURT ABUSE (TPO FILINGS):

- **The October Retaliation:** Official records prove the accuser filed the initial protection order exactly 24 hours (October 10) after she was served with divorce papers for felony bigamy (October 9).
- **Case No. TPO26-00990 (June 19, 2026):** Application for protection order DENIED. Order attached.
- **Case No. TPO26-00844 (April 2026):** Application for protection order DENIED.
- **Fact:** These consecutive filings represent a documented pattern of retaliatory abuse of process and perjury (NRS 199.120) to maintain property deprivation.

2. DISTRICT ATTORNEY REFUSAL TO PURSUE RESTITUTION (CASE NO. CR25-3109):

- **Fact:** In the criminal case State v. Megan McCafferty (CR25-3109), the District Attorney's office has actively refused to pursue victim restitution for the financial liquidation and asset theft caused by the defendant's crimes, in direct violation of my rights under Marsy's Law.

3. SYSTEMIC FAILURE TO ACT ON FALSE REPORTING (NRS 199.145):

- **Fact:** The perpetrator has filed over 30+ false, malicious police reports against me since 2013. These reports resulted in zero arrests, zero charges, and 31 clean drug screens. Despite this clear pattern of harassment, your offices have systematically refused to prosecute the perpetrator under NRS 199.145 (Filing False Police Reports), enabling a custom of harassment.

4. WITNESS TAMPERING & PERJURY REPORTS (MAY 22ND):

- **Fact:** Formal reports for Witness Tampering (NRS 199.240) and Perjury (NRS 199.120) regarding fabricated violations in case TPO25-01675 were submitted to law enforcement and probation on May 22nd. No action has been taken.

5. MANUFACTURED EVIDENCE / METADATA FRAUD (DECEMBER 8, 2025):

- **Report No. WC25-5850 / WC25-5842:** Official investigation report by Detective Joe Aceves (W3370) on December 8, 2025, confirmed forensic proof of innocence (metadata fraud/manufactured evidence) regarding allegations of sexual assault. Despite this official finding of innocence, no action was taken against the perpetrator for filing a false report (NRS 199.145).

Your ongoing failure to act on these specific criminal charges, probation violations, and restitution requirements constitutes a deliberate indifference to my constitutional rights, directly facilitating the ongoing harassment and property deprivation.

This email, its metadata, and the attached court orders are preserved as evidence of notice for our federal civil rights action under 42 U.S.C. § 1983.

Sincerely,

Donovan Clark
