Good morning Mr. Clark,

I think it would be best to meet in person or over the phone regarding your concerns so I can answer your questions and provide explanations where necessary.

Please let me know some days and times you are available this week or next to meet and your preference for in person meeting or phone meeting.

Thank you,

Lorena Valencia

Subject: Subject: URGENT: AMENDED VICTIM RESTITUTION DEMAND & NOTICE OF UNPROSECUTED CRIMES - State v. Megan McCafferty (CR25-3109)

Dear District Attorney Christopher Hicks, Deputy District Attorney Valencia, and the Victim Witness Assistance Center:

As the recognized victim in *State v. Megan McCafferty* (Case No. CR25-3109), I am submitting this **Amended Victim Restitution Demand** for immediate inclusion in the criminal file prior to the Defendant's sentencing hearing scheduled for May 20, 2026, at 9:00 AM before Honorable Lynne K. Jones.

Before addressing the updated financial devastation, I must go on the record to state my profound frustration with this office. For months, I have provided exhaustive, forensically verified evidence of the Defendant's ongoing, escalating criminal behavior while out on pre-trial release. **It is entirely apparent that this office did not listen to a single warning or review the evidence I provided.** By allowing her to plead down to a Gross Misdemeanor, the State has emboldened her to continue utilizing the justice system as a weapon against my family.

Because it appears my previous submissions were ignored, I am listing the documented crimes the Defendant has committed against me while this office looked the other way:

- **Witness Tampering (NRS 199.230) & False Reporting (NRS 207.280):** Exactly one day after her December 7, 2025 felony arrest, the Defendant filed a fabricated "Breaking and Entering" report against me (WCSO Report #250005950) in a direct, retaliatory attempt to have the State's primary witness arrested.
- **Fabricating Evidence & Perjury (NRS 199.210 & NRS 199.120):** The Defendant submitted digitally manipulated "injury photos" to law enforcement. Detective Joe Aceves forensically proved the metadata was backdated to October 16, 2025, to frame me for a September assault. She also committed Fraud Upon the Court by submitting a lawful out-of-state divorce service envelope from her actual husband, Jeremy Zlomke, and perjured herself by claiming it was a "death threat" from me.
- **Financial Extortion:** She explicitly and repeatedly conditioned my court-ordered access to my children on me sending untraceable cash to her CashApp account, stating visitation could not proceed otherwise.
- **Malicious Property Destruction:** Upon finally regaining possession of my home on March 10, 2026, I documented catastrophic hoarding, biohazards including feces on the floors and cat litter shoved into the HVAC vents, and the complete destruction of my property.

While the State may have chosen to ignore these crimes, the Defendant remains financially liable for the devastation they caused. On March 19, 2026, she signed an Amended Guilty Plea Memorandum in which she swore under penalty of perjury: *"I also agree that I will make full restitution in this matter, as determined by the Court"*.

My initial Restitution Packet submitted on January 17, 2026, for \$225,500.00 is no longer accurate due to the post-arrest destruction she caused. **The total verified restitution owed, as determined by direct financial ledgers and third-party receipts, is now \$284,371.94.**

In addition to the historical bigamy fraud (11 years of stolen rent and utilities), Judge Jones must be made aware of the following immediate, post-arrest damages:

- **\$6,000.00:** Forced Chapter 13 Bankruptcy costs incurred on March 18, 2026, to save my home from a \$4,200 lien resulting from the Defendant's malicious TPO lockout.

- **\$2,550.00:** Heavy debris and hoarding removal from the property.
- **\$600.00:** Biohazard remediation (cleaning rotting food/feces and decontaminating HVAC vents).
- **\$2,900.00:** Total destruction of the \$1,800 Samsung refrigerator and \$1,100 WiFi stove.

Attached is my comprehensive "ExpensesSpreadSheet," which serves as the itemized financial ledger of these damages.

I am invoking my rights under Marsy's Law to ensure the sentencing judge is fully briefed on the exact financial devastation this Defendant has caused. It is imperative that Judge Jones reviews this updated **\$284,371.94** figure so the Court can accurately determine the "full restitution" mandated by the plea agreement.

I will be calling the Victim Witness Assistance Center tomorrow morning to formally verify that this amended demand, the attached ledger, and this notice of ongoing crimes have been received and successfully added to the docket for Judge Jones's review.

Respectfully,

Donovan Clark (775) 447-7973 clarkdonovan85@gmail.com

--

Sincerely,

Donovan Clark
