To: scomeaux@dps.state.nv.us, lberryman@dps.state.nv.us

Dear Specialist III Comeaux and Supervisor Berryman,

I am writing to your office to respectfully request your guidance, assistance, and intervention as the certified primary victim (**CPN0016608**) in Case No. CR25-3109. The Defendant, Megan McCafferty, was sentenced to probation by Judge Lynne K. Jones in Department 6 on **20 May 2026**

My telephone number (**775-447-7973**) and email address (clarkdonovan85@gmail.com) have been prominently displayed on every public family court filing in Case No. DV25-01799 since November 2025, and I have been actively communicating with the District Attorney's office

. I want to cooperate fully with your department, and I am desperately seeking your advice on how we can correct this record so my **\$284,371.94 itemised victim restitution ledger** can be formally integrated into her supervision file as mandated by her plea terms

Furthermore, I am completely exhausted, and I do not know who else to turn to. The Defendant is continuing to use false legal filings and the police to harass me, and she is ruining my life and the lives of my minor daughters. I am a 100% service-connected disabled veteran, and I have been pushed to the absolute brink . I want to bring several critical facts and certified court records to your attention to ask if there is anything your department can do to enforce her probation conditions:

1. The Post-Sentencing Perjury & The May 18th Alibi

Under her probation terms, the Defendant is strictly required to obey all laws and maintain lawful conduct . However, exactly two days after she was sentenced, on **22 May 2026**, she filed a sworn Application for a Protection Order Against Domestic Violence (Case No. TPO26-00844), claiming under penalty of perjury that I yelled at and insulted her on Monday, **18 May 2026** .

I am completely confused as to how she was allowed to file this. On May 18, 2026, I was under a strict, active Extended Protection Order (Case No. TPO25-01675) which legally barred me from going anywhere near her under penalty of immediate arrest . I was nowhere near her on that day . If I had actually been at her residence violating a court order, she was legally required and expected to call 911 immediately . She did not call the police, because the incident never happened .

On **9 June 2026**, Court Commissioner Ilin Rocovits held a full evidentiary hearing on her application and **denied and dismissed Case No. TPO26-00844, explicitly ruling that there was "no basis"** for her claims . By filing a verifiably fraudulent application containing fabricated

allegations to execute a retaliatory civil strike against the primary state witness, the Defendant has committed active Perjury (NRS 199.120) and Witness Tampering (NRS 199.230) while under your active supervision .

2. The Theft of My Separate Property Home

The Defendant has repeatedly told state authorities that we shared a "marital home" . This is a complete falsehood. The residence at **6550 Pyramid Way #37, Sparks, NV** is my sole separate property, which I purchased on **9 June 2014**—long before our void marriage in January 2025—as verified by my certified HUD-1 Settlement Statement .

The Defendant used a fraudulent TPO built on fabricated allegations of "meth use" to forcefully evict me from my own home . I was made entirely homeless and forced to couch-surf for six months while she occupied my separate property rent-free, hoarded her Costco and Sourdough & Co. incomes, and intentionally defaulted on my space rent—resulting in a catastrophic \$4,200 lien on my home . She ultimately surrendered the home to me in a state of unmitigated squalor, leaving biological waste, animal feces, and a broadhead hunting arrow on the floor where my daughters walk . "Please find attached my Master Binder Exhibit H (Asset Devastation & Economic Waste), which consists of 18 pages of certified civil and public records

. This exhibit mathematically quantifies the severe financial devastation the Defendant caused to my separate property estate while she occupied my home under a fraudulent TPO

:

Certified Notices of Lien from Oasis Mobile Estates (Pages H-1 to H-4) proving she accumulated \$3,564.51 in unpaid space rent and late fees while withholding the property

;

An official Notice of Intent to Seize Mobile Home from Washoe County Treasurer Justin Taylor (Pages H-5 to H-6) proving her defaults pushed my home to the brink of government tax seizure

;

My Federal Chapter 13 Bankruptcy Plan (Pages H-9 to H-14, Case No. BK-N-26-50276-HLB) proving her financial starvation tactics forced me to leverage federal repayment protections to save my home

.

Pursuant to her signed Amended Guilty Plea Memorandum, the Defendant is contractually and legally bound to pay "full restitution in this matter, as determined by the Court"

. I request this 18-page certified exhibit be permanently appended to her criminal supervision file so the Division can accurately monitor her financial liabilities and enforce her restitution mandates."

3. Her Prior History of Fabricating Crimes

I have attached the certified police reports from the Washoe County Sheriff's Office documenting that she has run this exact same playbook for a decade . Whenever her legal leverage is challenged, she files a false TPO, and when the court dismisses it, she immediately calls the police to report a fake crime:

- **WCSO Report #25-5850:** Detectives forensically extracted the metadata from "injury photos" she submitted to frame me for sexual assault. **The metadata proved the photos were taken on 16 October 2025—sixteen days after she claimed the assault occurred** . Sheriff body-camera footage from October 1st also confirmed she had no injuries and told officers "nothing had been physical" .

- **WCSO Report #250005950:** Exactly one day after her felony arrest for Bigamy on December 7, 2025, she called the police to falsely claim I broke into the home to steal documents, solely to try and have me arrested and suppress my testimony . WCSO investigated, found it completely groundless, and closed the file .
- **2016 Historical TPOs (TPO16-01555 & TPO16-01795):** The Court Master dismissed her 2016 TPO applications because her testimony was "inconsistent" and she lied about being trapped in a bathroom . The exact same week, she called the police and falsely reported me for kidnapping our daughter .

Please, I am begging for your help. I am a disabled veteran trying to protect my kids and keep a safe environment . The Defendant is utilizing the courts as an active tool of extortion and harassment, and she will not stop .

Is there anything your department can do to address these ongoing probation violations, enforce her sentencing conditions, and stop her from destroying my life? I have attached all of the certified court orders, the WCSO reports, and my itemised restitution ledger for your review.

I would be deeply grateful for any guidance you can provide on how we can legally move forward to address these issue. If you need further information please let me know.

Sincerely,

Donovan Clark

Victim #1 (CPN0016608)
