Dear DDA Valencia,

I am writing to provide a procedural update regarding the ongoing matter of State v. McCafferty (Case No. CR25-3109). I recognize from your automated response that you are currently out of the office and scheduled to return on March 2, 2026. This email is provided to your support team to ensure your file is updated immediately upon your return.

In accordance with your directive on February 17, 2026, advising that evidence of new criminal activity related to this case must be formally routed through law enforcement before prosecutorial review, I have initiated a formal complaint.

On February 28, 2026, a comprehensive report was filed detailing the Defendant's continued violations of pre-trial release conditions, specifically focusing on Witness Tampering (NRS 199.230) and Harassment (NRS 200.571). This report maps the Defendant's ongoing efforts to weaponize civil protection orders and file retaliatory police reports (including the fabricated December 8, 2025, breaking claim) to intimidate me as the primary witness in the pending bigamy prosecution.

The report was submitted through the regional online reporting portal and processed by the Reno Police Department.

The original report was given on Dec 10th. and the number I have is: 250005950 The official tracking number for this investigation is: T26002583. I called the clerk to try to set a meeting with an officer or something to turn all this evidence over i guess they can print faster than coming to get it considering its there own reports. Either way the clerk told I needed to file it online. So I filed a supplement to that report and I will be taking the evidence packet to Parr on Monday to drop off either way.

I understand from the automated confirmation that the report is currently under administrative review for approval and permanent case number assignment. Due to the multi-jurisdictional nature of the incidents, and the fact that the Washoe County Sheriff's Office handled the initial arrest, I anticipate RPD will coordinate with WCSO to merge the findings.

The formalized binder of evidence—including the digital metadata proving the fabrication of injury photos and the certified court transcripts proving perjury on fee waivers—has been linked to this tracking number for law enforcement review.

I will forward the permanent case number the moment it is assigned by the department so that your office may formally request the investigative findings to evaluate the revocation of the Defendant's pre-trial release.

Thank you for your continued time, guidance, and attention to this prosecution.

Respectfully,

Donovan Clark (775) 447-7973

Hello Mr. Clark,

I am the DDA assigned to prosecute the above case. My office is in receipt of your emails with documentations attached. The last one you sent was 2/11/26. I will review the information you have provided to determine if we are able to address your concerns in my case.

In your emails you suggest possible new crimes, and I wanted to advise you that any evidence of new criminal activity needs to be reported to the appropriate law enforcement agency, which in this case is the Washoe County Sheriff's Office. If you have not done so already, please forward everything you have provided us to WCSO for their review as the first step, as they are the investigating agency and we are the prosecution authority.

Thank you for your input and the information. Please let me know if you have any other questions.

Thanks,

Lorena
