Hi Tirzah,

The bottom line is the girls need to have a strong relationship with their therapist so we can ensure their safety and mental health needs are being addressed. In order for an in-home safety plan to be developed we still need more knowledge about the dynamics as a whole and how those impact the girls' mental healthy and safety. Now that Ms. McCafferty and Mr. Clark have provided us some framework for the schedule of the home and their plans to address relapse (related to both DV and substance use), this is a step forward.

Subject: RE: Clinical Recommendations

Hi Jennie,

Thank you for these details.

May I ask for clarification though. In order for the CFR to be met, is the only requirement is that the girls get better established with their therapists? And, if that is the case, how doe we qualify requirement?

Thank you,

Tirzah Faith Mathews, Esq.

Subject: Clinical Recommendations

Hello folks,

This morning, I met with Jennifer Hubbert (family/couples therapist), Jesse DeHaven (Megan's individual therapist), Rebecca Perkins (Eva's therapist), Megan Mulligan (School Counselor for Sepulveda ES) Lisa Ekart (WCHSA clinician) and this writer. Lexi's therapist, Geneva Steffinger was unable to attend but Rebecca asked questions and will relay information to her.

As a team, the following recommendations were made:

Psychological evaluations for Lexi – there is some concern that she may have processing issues in how she absorbs information. I will begin locating a provider.

Psychological evaluation for Eva – Eva believes she has ADHD and Megan agreed that there were behaviors indicative of this. I will begin locating a provider.

Psychological evaluation for Megan – to gain a better understanding of her thought processes and mental health status. Megan, I will submit a voucher for services.

Megan to participate in the neuropsych evaluation in September.

Continued Individual therapy for everyone. Jesse will be submitting a request for additional sessions with Megan, which I will approve and process.

Additional parenting classes, specifically, Strengthening Families program. This program runs regularly through the Boys and Girls Club. I have reached out to see when their next sessions will begin. Alternatively, WCHSA regularly offers the Circle of Serenity Parenting Class that would also be an option.

Everyone agreed that in-home safety planning can not occur until the girls have become better established with their individual therapist. This clinical team will meet again on August 1.

Let me know what questions you may have.

Thank you,

Jennie Ballou, LSW, BSW
