Hello,

I consulted with our medical unit. Do you recall the reason for the sent? Bladder, blood vessel, or? This is a rare issue, not usually something that would usually allow a child to go to the zoo afterwards.

Subject: Eva - Abdominal Stent?

Hello,

I spoke with the school nurse and she says that Eva has an "abdominal stent" and as such she may need additional bathroom breaks.

Could someone help me understand more about the abdominal stents?

Thank you,

Jennie Ballou, LSW, BSW
