Hello Team,

I need to make everyone aware of a change in visitation for Donovan, Megan, and the girls. The Agency validates the contentious and hostile relationship between the parents and Ms. Baker. The girls have been interviewed multiple times, separately, about their placement and report they are adjusting well, that Ms. Baker and everyone in the home is kind to them. They deny that Ms. Baker is monitoring their calls or talking negatively about their parents. The girls report the parents don't or rarely call. The girls report they have their cell phones before bed to allow for the 8 pm calls. The girls also report being comfortable with the level of contact they are having with their parents.

Over the past week, the contact between the girls and Ms. McCafferty and Mr. Clark has been increasingly concerning. Mr. Clark has forwarded a text he received from an unknown number from who is assumed to be Ms. Baker in which it discloses that Eva has had a boyfriend for a year and Ms. McCafferty has assisted Eva in hiding the relationship from Mr. Clark. On 05/23, Eva called me sobbing, saying that Ms. McCafferty had called her a "liar" when Eva confessed to Mr. Clark that she had had a boyfriend. On 05/24, Lexi also calls Mr. Clark confirming Eva had a boyfriend. In Mr. Clark's description of the call with Lexi, Mr. Clark states that he never asked Ms. McCafferty if Eva had a boyfriend, therefore, Ms. McCafferty had not "lied". Ms. Baker explained Lexi's call with Mr. Clark that Lexi told Mr. Clark that Eva had a boyfriend. Mr. Clark then told Lexi he knew people were making the girls say things. Ms. Baker ended the call and took the phones away for the remainder of the weekend.

Ms. Baker felt the girls having cell phones in her home is too much drama and she has taken the phones to the FEC for the parents to pick up at the next visit. Ms. McCafferty and Mr. Clark can call the girls on the computer that is in the kitchen. Calls between the girls and parents will need to be monitored moving forward. We can identify who can supervise these calls at the CFT on Monday. Calls with the girls need to be focused on the girls, their needs, interests, and concerns.

At the visit earlier this week, it was observed that Eva was crying while talking to Mr. Clark. Ms. McCafferty disclosed Mr. Clark and Eva were discussing the issue of her having a boyfriend. For the time being, visits will need to remain on-site at the FEC until there is a better understanding of the parent/child dynamics.

Lastly, the information above was delayed as another issue came to light. Yesterday, Eva went to school and left a chatting program open on the computer. Della read the conversation between Eva and her friend, and she contacted me. There were messages in which Eva makes suicidal statements, homicidal and aggressive statements, and multiple sexual comments indicating she was having some type of sexual contact at school. I consulted with our clinical staff, who also spoke with Jennifer Hubbert yesterday afternoon regarding Eva's suicidal statements. The principal of the school has been notified of concerns that Evakay may be engaging in sex acts at school and the school will be monitoring her more closely.

Family therapy has begun, and we can request therapeutic recommendations as we move along. Ms. Hubbert (family therapist), Ms. Lopez (FEC engager), and Jesse DeHaven (Ms. McCafferty's therapist) have been invited to attend the CFT on Monday.

Eva and Lexi are set to begin individual therapy starting 06/12. This will also help gain insight into how to move forward.

I appreciate the difficulty this information has for your families.
