

EXHIBIT “8”

Washoe County Human Services Agency
CASII - Child and Adolescent Service Intensity Instrument

Client Name: **BALDES,EVAKAY**

Date of Scoring: **2/1/2024**

Rater Name: **TAITANO,KIM**

1. Clinical Level of Care Recommendation (The level assigned or which you estimate before using score sheet below: **CASII Service Level 0: Basic Services**)
2. Indicate the applicable ratings within each dimension on the CASII form in Avatar . Scores are totaled at #3, and determine the recommended level of care (at #4) using the Placement Grid.

I. Risk of Harm:

1. Low Risk of Harm
2. Some Risk of Harm
3. Significant Risk of Harm
4. Serious Risk of Harm
5. Extreme Risk of Harm

Score: 1

II. Functional Status

1. Minimal Functional Impairment
2. Mild Functional Impairment
3. Moderate Functional Impairment
4. Serious Functional Impairment
5. Severe Functional Impairment

Score: 1

III. Co-Occurrence of Conditions: Developmental, Medical, Substance Use and Psychiatric

1. No Co-Occurrence
2. Minor Co-Occurrence
3. Significant Co-Occurrence
4. Major Co-Occurrence
5. Severe Co-Occurrence

Score: 1

IVA. Recovery Environment - Environmental Stress

1. Absent
2. Mild
3. Moderate
4. Serious
5. Severe

Score: 3

IVB. Recovery Environment - Environmental Support

1. Optimal
2. Adequate
3. Limited
4. Minimal
5. None

Score: 3

Sub-Score IV. Recovery Environment: 6

V. Resiliency and/or Response to Services

1. Full Resiliency and/or Response to Services
2. Significant Resiliency and/or Response to Services
3. Moderate or Equivocal Resiliency and/or Response to Services
4. Poor Resiliency and or Response to Services
5. Negligible Resiliency and/or Response to Services

Score: 1

VIA. Child or Adolescent: Involvement in Services

1. Optimal
2. Adequate
3. Limited
4. Minimal
5. Absent/None

Score: 1

VIB. Parent and/or Primary Caretaker Involvement in Services

1. Optimal
2. Adequate
3. Limited
4. Minimal
5. Absent/None

Score: 4

Sub-score: VI. Child/Caretaker Involvement in Services: 4

Note: Due to independent criteria, some scores require automatic admissions to a higher level of care regardless of combined score. A score of 4 on dimensions I, II, or III results in placement at level five (These level V placements on II and III may be waived if "2" equals the sum of the IVA and IVB scores - See Level of Care Override below). A score of 5 on dimensions I, II, or III results in placement at level six.

3. Total Composite Score from the above work sheet scores: **14**
4. Nevada Derived Level of Care Recommendation (Consult grid below for the scoring and levels):

7-9	= CASII Service Level 0: Basic Services for Prevention and Maintenance
10-13	= CASII Service Level 1: Recovery Maintenance and Health Management
14-16	= CASII Service Level 2: Outpatient Services
17-19	= CASII Service Level 3: Intensive Outpatient Services
20-22	= CASII Service Level 4: Intensive Integrated Services w/out Psychiatric Monitoring
23-27	= CASII Service Level 5: Non-Secure, 24-Hour w/Psychiatric Monitoring
28+	= CASII Service Level 6: Secure, 24-Hour w/Psychiatric Monitoring

5. Actual (Disposition) Level of Care: **Service Level 2: Outpatient Services**

6. Reason for Discrepancy (if Applicable):

Score is elevated due to recent removal and father only recently engaging in services and inconsistent contact with WCHSA by parents at this time. Eva does not present with any emotional or behavioral concerns and her response to her removal is within what would be anticipated.

Level of Care Override: **CASII Service Level 0: Basic Services**
