1. Discuss the safety, child's adjustment and appropriateness of the placement.

Eva is currently placed in the resource home of McKenzie Davidson and Sierra Crist with her sister, Alexis. Her EPSDT was conducted on January 24, 2024 and the following reported: Eva is a healthy young woman. She has concern for a tooth problem and occasional abdominal pain when doing core/ab exercises but otherwise states she is healthy. On exam she does have an adult tooth growing near the base of her L upper canine. Neither tooth is tender or sensitive, there is no signs of infection. She needs to follow up with a dentist. She demonstrates moderate to high depression per a mood questionnaire and should be evaluated for therapy.

Eva is not established with a dentist and has not been seen by one in several years. She will be seen at My Kids Smile (S Reno location) on March 21, 2024.
